

HOUSE OF FAIRYTALES IDEA COMPETITION  
ODENSE, DENMARK

Set within the historic town of Odense, Denmark, the Hans Christian Andersen Museum hosted an ideas competition to chart the path for future development of the institution. Our proposal challenged the importance of the historic town center. By proposing a design that will contrast the historic context, the site will stand out as an unique destination. The garden will also take precedence as individual gardens represent unique worlds and specific programmed uses. The journey through each garden will lead one through the many programmed areas of the building that is also integrated with the city's planned infrastructure.

Owner: Hans Christian Andersen Museum  
Architect(s): n/a  
Scope: Concept Design (TLEEDESIGN)  
Size / Cost: 2.2 acres / n/a  
Completion: 2013
